OVERVIEW OF THE COMPANY

01 |

SYRINO ELECTROMECHANICAL was commercially established in UAE on December 06, 1980 after successfully working on several major projects during its founding year on **1974**.

SYRINO ELECTROMECHANICAL provides a complete range of Mechanical, Electrical and Plumbing services through highly experienced Engineering & Project Management team fully complying to time, cost and quality requirements of projects.

Nearly **50 years**, we carried out **more than 100 MEP contracting projects** in a value of over 350 Million Dirhams in United Arab Emirates.

Our set of core values is the most precious guide for us in every step we take. We are a strong team who develops continuously, gives particular importance to creating value in the society, makes innovative attempts by combining the engineering and technological strengths with the strategical skills for a sustainable world in environmental, social and economical terms.

OUR SERVICES

SYRINO ELECTROMECHANICAL provides the following commercial activities:

- HVAC Contracting
- Electrical Contracting
- Plumbing Contracting
- Fire Fighting Contracting
- Electromechanical Equipment Installation and Maintenance
- Testing and Commissioning
- Operation and Building Maintenance
- Decor / Fit-Out Works

MESSAGE FROM THE MANAGING DIRECTOR

Welcome to Syrino ElectroMechanical!

Syrino deeply appreciates the unwavering support and interest of our Clients. We at Syrino will strive for client's satisfaction through enhancing quality and technology, as it is our company's utmost mission in addition to fulfilling its corporate social responsibilities.

Since its establishment in 1974, Syrino has conducted numerous projects which are monumental in the history of construction.

One step further, Syrino will continuously respond to the future changes in market by diversifying our businesses and I will personally assure you of our best services at all times.

Sincerely,

Engr. Saker Aljbour |
Managing Director
Syrino ElectroMechanical

EXECUTIVE LEADERSHIP

MANAGING DIRECTOR ENGR. SAKER ALJBOUR

Engr. Aljbour brought with him more than 25 years of experience in the MEP Contracting Industry and currently a major share-holder of the company.

Under his portfolio, he successfully managed and delivered projects with over AED2 Billion contract value including the following recent projects handled while working with prestigious companies like Galaxy Advanced General Contracting LLC, Al Sabbah Electro-Mechanical Cont. Est (Al Faraa Group), Emirates Electromechanical & Industry LLC (Al Farabi Investment), Al Hamed Development & Construction LLC.

He will continue to drive the Group's engineering capabilities by focusing on talent development, technologies adoption & digital transformation.

Engr. Aljbour holds a Bachelor of Engineering (Electrical) and a member of Jordanian and Iraqi Engineering Associations. Acquired Risk Management PMP, LEED and FIDIC Contracts Certifications.

OPERATIONS DIRECTOR ENGR. BASEL TAYEH

Basel Tayeh, is dynamic leader at the forefront of the MEP Construction Industry specializing in energy sector, brings over 23 years of experience to the table. As the President of Engineers Australia UAE Chapter, he's dedicated to fostering professional growth and innovation. With roles in top energy companies like ABB, ADWEA, Siemens, GEW, and Parsons, Basel is well-versed in driving agile organizational changes and overseeing Mega-scale projects exceeding MUSD 850.

Basel Tayeh's leadership and dedication define him as a driving force in shaping the energy landscape while uplifting the engineering community.

In his capacity as Volunteer President, Basel continues to champion the cause of engineers in the UAE, steering them toward cutting-edge technologies and sustainable practices. His leadership is underscored by his executive role in a leading UAE companies, where he propelled strategic growth initiatives and fostered innovation.

VISION MISSION & CORE VALUES

VISION

To be the premier Contractor for Mechanical, Electrical and Plumbing Works Projects in UAE.

MISSION

To provide safe, reliable and quality service by adopting innovative technologies and fostering a conducive, caring environment to grow our people so as to optimise their talents and achieve enhanced value for our customers.

CORE VALUES

SAFETY

Safety is our top priority and we walk the talk.

PROFESSIONALISM

We strive to tackle major challenges with our solutions-oriented approach.

PEOPLE-CENTRIC

We believe that our people are the most important assets.

OWNERSHIP

We take pride in embracing ownership on all tasks.

TEAMWORK

Teamwork is the pillar of our success.

INTEGRITY

Honesty is the key characteristic of all Syrino staff and fundamental in our day to day work.

QUALITY

We assure our customers the highest quality in everything we do.

A person's hands are shown working on architectural blueprints and a laptop keyboard. The blueprints feature various room labels and dimensions, including 'House 3.4 x 7.0', 'Family 5.6', 'Garage 2.8 x 9.2', and 'Up Cellar'. The person is wearing a white and blue striped shirt. The background is a dark blue gradient.

ENGINEERING CAPABILITIES AND SERVICES

SPECIALIZATION AND CORE SERVICES

ELECTRICAL WORKS

- Comprehensive Electrical System Design
- MV/ LV electrical distribution
- MDB / SMDB
- Fire Alarm Systems
- Internal & External Lightning/Protection
- MCC panels and PLCs
- Mains Switchgears Earthing & Bonding
- Bus-bars
- Generators/Standby Generator Installation
- Controls Wiring
- Smoke Extract Systems
- Transformers
- Photo Voltage System
- DC System
- EMS System

FIRE FIGHTING

- Smoke / Heat detection
- Standard & quick response Sprinkler systems
- Fire /Gas suppression system
- Fire Fighting Pump Installation
- CO2 System
- Foam System
- Emergency/ Exit lighting system
- FACP programming, testing, and Commissioning
- Civil Defense approval, and EHS Certification

ELV SYSTEMS

- Structured Cabling System
- CCTV System
- Public Address System
- Background Music System
- Access Control System
- Lighting Control System
- Gate Barrier System
- Video Intercom System
- Water Detection System
- Paging System

PLUMBING

- Cold and Hot Water Systems
- Drainage systems
- Irrigation Systems
- Sewerage Treatment
- Rain/Storm water
- LPG/NG Systems
- Solar Systems
- Mists Systems
- Swimming Pools

HVAC WORKS

- DX systems (direct expansion)
- FAHU, AHU, FCU, and PU
- Central Plant Design
- Direct Digital Control (DDC)/BMS2
- VRF installation & commissioning
- Heating & Ventilating
- Exhaust Systems
- Heating /Chilled Water Systems
- Ducting work / Cleaning
- Plant Manager System

PROJECT MANAGEMENT

SYRINO Electromechanical uses the best ideologies and latest computer technology to develop project schedules ranging from simple bar charts to meticulously detailed CPM/PERT schedules used in multi service construction contracts. Combining hi-tech applications with project planning techniques, our planning professionals assure that contracts progress as scheduled, yielding methodical, timely and economical results. Here at SYRINO Electromechanical we define project management as the application of knowledge, skills, tools and techniques to a broad range of activities in order to meet the requirements of our esteemed projects. The process of directing and controlling a project from start to finish may be further divided into 5 basic phases:

Phase1. Project Initiation

A project is formally started, named and defined at a broad level during this phase. Project sponsors and other important stakeholders perform their due diligence on whether or not to undertake the tender. Depending on the nature of the project, feasibility studies are conducted, requirement gathering and analysis are performed in this phase.

Phase2. Project Planning

During this phase that a project management plan is developed all comprehensive of individual plans for - cost, scope, time, quality, communication, risk and resources. Some of the important activities that mark this phase are - development of schedule, milestone charts, estimating and reserving resources, planning dates and modes of communication with our clients based on milestones, deadlines and important deliveries. Projects have identified and unidentified risks that may affect aspects of projects in later stages, hence a plan for managing these risks should they happen is determined. Risk management planning includes risk identification and analysis, risk mitigation approaches and risk response planning.

Phase3. Project Execution

In the execution phase the project deliverables are developed and completed, adhering to the plan as developed in the previous phase. Our full project team and laborers are on site, procured items will be delivered as planned, and the bulk of the construction development of our project will be delivered. The project execution and project monitoring and Control are the 2 phases that mostly occur simultaneously. A lot of project management tasks during this phase capture project metrics through tasks like status meetings and project development updates, status reports, human resource development and performance reports.

Phase4. Project Monitoring and Control

All schedules are monitored and updated at regular and frequent intervals to ensure early detection of shortfalls and accommodate any changes that may be required or requested.

Phase5. Project Closure

A project is formally closed in this phase. It includes a series of important tasks such as making the delivery, relieving resources, reward and recognition to the team members and formal termination of any subcontractors in case they were employed on the project. Accomplishing the above phases, our Project management Execution philosophy leads us to excel and certify clear results for the following statements:

- Create detailed schedule and resources plan to meet client's exact project objectives
- Communicate clearly with all project stakeholders
- Track project progress and fine tune deviations
- Supervise closely on quality of work done
- Complete and commission the project on time. We take pride in our delivery, thus our clients can always be assured that only the most experienced and qualified people are serving them, all the time.

QUALITY AND HSE POLICY

QHSE POLICY

10th January- 2022

QHSE POLICY

SYRINO ELECTROMECHANICAL (SYRINO) is fully committed to Quality, Health, Safety and Environment extends beyond our business and employees to interested parties and the Community at large. The Management undertakes the appropriate steps to implement the principles set forth in standards ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 which are used as a reference for the Company's Integrated Management Systems. The activity is carried out in compliance with both the technical standards and the current legal framework, with customer satisfaction as the main objective and measurable targets.

The Management and Staff of **SYRINO ELECTROMECHANICAL** shall,

- Establish, implement and maintain a QHSE Policy that is appropriate to the purpose and context of the organization and supports its strategic direction.
- The continual improvement for its Quality, Health, Safety and Environmental performance standards and to protect the environment and the associated health and safety of its employees, clients or customers, suppliers, and the general public. Only through the cooperative effort of all can the best possible QHSE record be achieved.
- Provide and maintain safe environmental and healthy working conditions for all our employees, who are the company's most valuable assets. Also, identify OH&S Hazards and opportunities and other hazards and opportunities for the OH&S management system.
- Consult, communicate and collaborate with employees and other stakeholders on QHSE matters, QHSE Performance and other relevant matters.
- Prevent incidents, accidents, injury and ill health to its employees and other interested parties by eliminating hazards and reducing OH&S risks.
- Provide appropriate tools, equipment, operational processes, safe system of work covering all our activities and support reasonably required to ensure success.
- To raise awareness and train employees in OHS and environmental matters relevant to their obligations. Prevent environmental impacts and provide high quality services and products.
- Where there are risks to health, safety and environment, Aspects need to be assessed under specific duty or regulations. We will ensure that our assessments are carried out and that all actions shown to be necessary will be implemented.

SYRINO ELECTROMECHANICAL communicates this policy to all employees through training and daily management activities, both to ensure their understanding and to ensure that the policy is properly upheld. Our policy is made available to relevant interested parties upon request. The policy will be continually monitored and reviewed regularly, in orders to comply with any changes.

Mr. Saker Aljabour
Managing Director

ENVIRONMENTAL POLICY

10th January- 2022

ENVIRONMENTAL POLICY

SYRINO ELECTROMECHANICAL is a company in the region, whose mission is to ensure bringing into life exuberant visions with high values playing an exquisite role to effectively participate upgrading community's development in UAE and adding values to the Corporate Social Responsibilities.

SYRINO is highly and promptly committed to carrying out all of its activities in an environmentally sustainable manner through allowing sustainable development indicators measuring sustainability or sustainability development performance.

Part of these commitments are;

- Identify potential environmental impacts and opportunities from **SYRINO** construction activities, by commissioning environmental impact assessments for all projects' proposals, and then address recommendations in the decision-making and planning processes;
- Seek to minimize pollution and use natural resources sustainably by considering environmental performance and climate change in investment decisions, master planning, development design and construction, and supporting relevant research and development;
- Ensure regulatory compliance and continuous improvement by identifying appropriate environmental standards, developing and implementing guidelines, implementing pollution mitigation measure, monitoring environmental performance, and reviewing activities where necessary;
- Provide environmental training and awareness to staff to enable them to carry their jobs responsibly, and ensure accountability for environmental performance at all level in **SYRINO**;
- Ensure contractors, sub-contractors, suppliers, and partners working with us meet or exceed **SYRINO** environmental expectations;
- Pro-actively work with interested parties through research and joint program, to advance environmental management on execution of product and services.
- Operate and maintain all environmental management system through applied methods and systems approach in line with the guidelines of ISO 14001:2015.

A handwritten signature in black ink, appearing to be 'Saker Aljbour', is written over a circular stamp.

1 PRE-QUALIFICATION FOR STARCO FIRE PROTECTION ENGINEERS

Submitted by:		Date:	4-Oct-2022
	Eng. Shamel Salem Construction Manager		

The Consultant's /Client Representative's review and/or approval shall not be construed as a complete check nor shall it relieve the Contractor from responsibility for errors of any kind in shop drawings, method statements, or schedules, or from the necessity of furnishing any work required by the Drawings and Specification, which may have been omitted on the shop drawings. The Consultant will review shop drawings and samples with promptness and will return them to the Contractor with the Consultant stamp applied thereto. No acceptance or approval of shop drawing or samples, nor any indication or request marked by the Consultant on any shop drawings catalogue sample or mock-up shall constitute an authorization for any increase in the Contract Price or Time for Completion.

TO WHOM IT MAY CONCERN

This is to certify that M/S Syrino Electrical Contracting Company have been dealing with us as a sub-contractor for the electrical works in some of our building projects over the past few years. In all these projects they proved to be dependable as regards the quality of work, the punctuality and the cooperative approach. We highly recommend them for any job of similar nature.
